

SCOE EARLY HEAD START

2022 – 2023 Highlights

First time painting!

Raheem loves to fingerpaint

Kamryn

Alan sorting nuts for squirrels

Sama's first time painting

Elian making alphabet soup

LEARNING THROUGH PLAY

“Experimenting with sensory materials stimulates expressive language for children with speech delays.”

Plastic fishing worms with stacking cups

Elodie making a play dough birthday cake

Gracie & Mom making moon sand @ the park

Sensory Play

LOOK WHAT I CAN DO

Does Mom have to help me hold my picture? - "I'd rather do it, ALL BY MYSELF!!!" even though it may get torn or crumbled 😊😊

"Hand Prints" made with - gooey colored paint, is fun 😊😊 to do - with Mom !!!

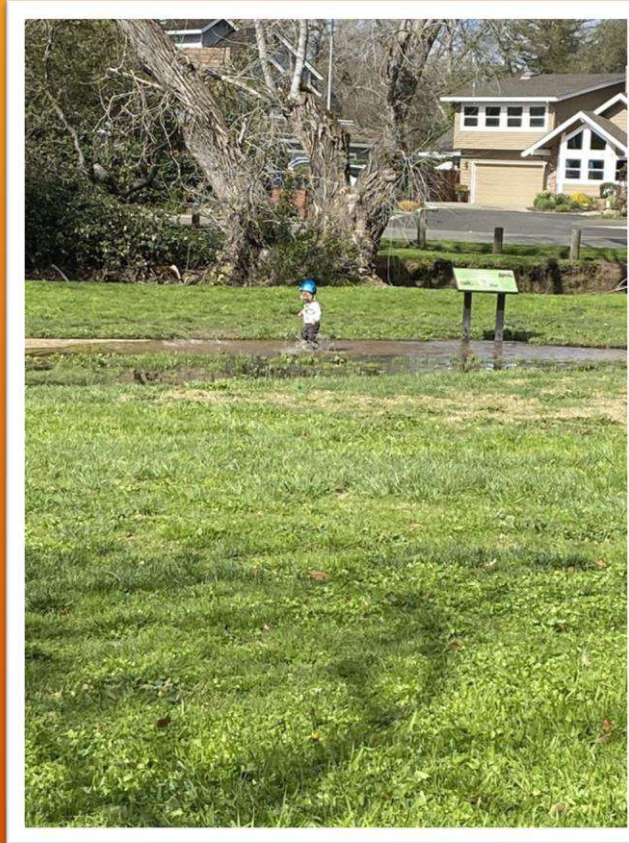

Experimenting & Outdoor Adventures

Marco & Madeline having fun searching for animals at the Zoo!

EXPERIMENTS & OUTDOOR PLAY

Toddler science. Bubble experiment. What happens when we add glycerin to our bubble solution? And why? What if we add colors?

Alan safely jumping in puddles

HOME BASED FUN & LEARNING

HOME BASED FUN & LEARNING

"Having someone new come into your home is an adjustment. The work to make a connection and build a bond begins with getting to know our little people." MS

Reggie

Ham choi

Fine motor fun assembling and deconstructing Duplos

Learning exchange. I taught Mother and daughter the colors in English and they taught me the colors in Dari.

This child's best friend is his cat. He was a little shy at first, so his BFF joined us for activities. Here is the dynamic duo working some motor skills.

Mo & Baby Mokhari

First "Mother's Day" greeting card made by mother and daughter - 😊😊

"So much to see"

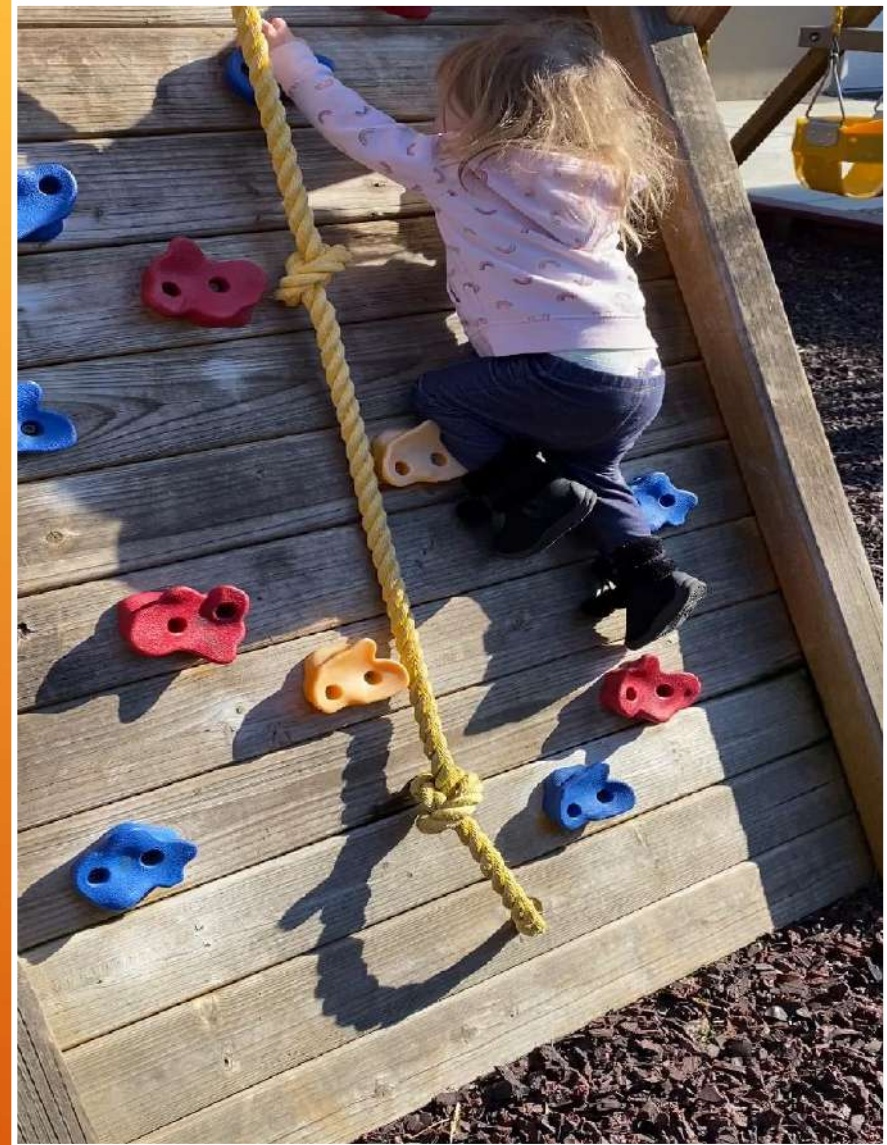

"IT TAKES A BIG HEART TO SHAPE LITTLE MINDS". – UNKNOWN

Music & Movement Socialization

Encouraging large motor exploration and risk taking. Building positive self-esteem and confidence. Celebrating success!

HAVING FUN WITH OUR KIDDOS

"Where is Camila?"

"I can hold up - one  finger"

Angel practicing fine motor skills by stringing beads and pipe cleaners

35 month-old Nino learning to use scissors

30 month-old Angel learning name identification while practicing fine motor skills and learning colors

17 month-old Luis and Mom planting seeds

Fine Motor Skills

"Play gives children a chance to practice what they are learning" - Fred Rogers

33 month-old
Pablo exploring
texture with
shaving cream

20 month-old
Sabrina
exploring
colors

NINO MAKING
A COLLAGE
USING WATER
AND TISSUE
PAPER

9 month-old Alan & 3 year-old Alfredo
having fun with a sensory activity

Pablo making his own
play dough

SABRINA LEARNING HOW TO
USE COOKIE CUTTERS AS
STAMPS

FAMILY TESTIMONIAL

"When we were diagnosed with our child's condition, our teacher reassured us that there are support services that will help our child and our family. We are going to be okay. She is always there for us and makes sure that we get all the support that we need. From giving us advice to connecting us with the right resources, she never fails to make things better for us. Our teacher is always checking in with us to see how we are doing. Especially when I was transitioning to a new job. She is always sharing and showing us different community events to join so our son can have more opportunities for the social interactions that he needs."

TEAM TIME

Denver Zoo

EHS at the County Fair
